Welcome Message from the President of the Malaysian Arthroscopy Society (MAS)

2023 marks the 10th Anniversary of the Malaysian Arthroscopy Society. Officially formed in 2013, MAS began initially as a Subspecialty Interest Group in the Malaysian Orthopaedic Association (MOA) which currently serves as the umbrella for the many subspecialty societies and groups in Malaysia. This year serves as a celebration of how much we have achieved and how far we have come in the last decade while looking forward to the next decade for the Advances in Arthroscopy and Orthopaedic Sports Medicine.

The Organising Committee led by the ever-capable Col Dr Kok Choong Seng (Rtd), who is also the MAS Vice President, as well as the Co-Chairpersons of the Scientific Committee, Assoc Prof Dr Mohd Nizlan Mohd Nasir and Dr Harjeet Singh Puran and the Scientific Committee have worked hard to organise the best scientific meeting for MAS thus far befitting the celebrations of MAS 10th Anniversary. Practice management as well as important matters of fee schedule, fellow training, have been planned for these 3 days.

I welcome our fellow ASSA member societies, other fellow societies, MAS Members, colleagues, industry partners and Ministry of Health Malaysia to our meeting.

A special mention that for the first time in MAS history, we look forward to the inaugural MAS Innovations Awards. This award will showcase local innovations and advancement of the field of Arthroscopy and Orthopaedic Sports Medicine, be it in patient management, clinical and hospital settings, surgical implants and instrumentations, and other relevant areas.

Do not miss out as well on joining us for the already established Azmi Abdul Latif Awards for Best Free Paper Oral Presentation and the Sanusi Ghani Award for Best Free Paper Poster Presentation.

I look forward to the networking, socialising and spending time with all of you in the course of these 3 days.

See you in the halls of Marriott Putrajaya.

Welcome Message from The Organising Chairman of the 10th MAS ASM 2023

10 years ago, the Malaysian Arthroscopy Society was formed by a group of visionaries and pioneers of arthroscopic surgery in Malaysia. This year we will be celebrating our 10th Anniversary. That means we have survived infancy and toddlerhood, which used to have a high mortality rate. In fact, we have more than survived. We have grown from strength to strength. However, none of this is possible without the support of our members and industry partners.

I am humbled to have been appointed the organising chairman of this year's landmark 10th Annual Scientific Meeting with the theme **"Arthroscopy and Orthopaedic Sports Medicine: The Next Decade"**. Having gone through 10 years of existence, and coming out of a global pandemic, it is time to reflect on our achievements in those years and to look ahead to the next 10 years. Arthroscopic surgery and orthopaedic sports medicine have advanced by leaps and bounds since I first ventured into this field back in 1995. Then, we had few teachers, equipment and expertise. However, we had the passion to learn, and lots of patients to learn on. With time, and not a few stumbles every now and then, arthroscopic and sports surgery has become a recognised sub-speciality within orthopaedics in Malaysia.

The scientific committee has put in a tremendous effort to present to all a comprehensive program of plenary lectures, symposia, Instructional Course Lectures, free papers, and poster sessions. We have also kick start what I hope is a new tradition of MAS Post Graduate Championship Quiz.

I extend a warm welcome to all of you who have committed your time to spend 3 days with us and hope you will all enjoy a truly enriching and valuable learning experience together.

MAS INNOVATION AWARD

12th October 2023, Day 1 | Lecture Hall A, Foyer | 1630 - 1730

As part of the 10th MAS ASM 2023 celebrations, MAS has kicked off the MAS Innovation Award. Assoc Prof Dr Mohd Nizlan Mohd Nasir was inspired to suggest this award to showcase the creativity and innovation within our community.

The cash prize for this award is generously sponsored by Datuk Dr Mohd Asri Abd Ghapar, our presiding President of MAS from 2021 to 2023. The innovation award, henceforth will be contested during the MAS Scientific Meeting annually and deemed innovative by the Scientific Committee of the ASM, in the management of Sports Injury and Arthroscopy patients in Malaysia.

Terms and Conditions of this Award

1. This award is open only to a MAS Member (Life, Annual or Associate Member).
2. Must be a practicing Orthopaedic or Sports Medicine resident or specialist or consultant in Malaysia.
3. The initiative has not won any previous award elsewhere.
4. Original idea innovation proved during abstract submission status.
5. Official / validated assessment tools used to evaluate the success of the initiative will garner merit in the content.
6. The initiative encouragingly shows sustainable positive outcomes in patient care.
7. The innovation should put PATIENT SAFETY as its top priority.
8. This award is not open to industry partners employees or product belonging to a company.
